

PIEPER RANCH, INC.

2010 Breeding Season - Collection Days Calendar for Haul In Mares / CTS Shipment

The days CIRCLED in RED are our breeding/collection days

Some suggestions to help us provide the best possible CTS service for the 2010 breeding season:

Please have your vet stay in contact with us as they follow your mare through her heat cycle and report her palpation/ultrasound checks to us. This will help us manage and co-ordinate CTS shipments. We collect early in the morning on the days in **red** on the collection calendar. If you need semen, we **must** hear from you no later than **12:00 NOON** the day before. This will allow us to process your paperwork and arrange for courier/shipping etc. for early the next morning. We are at the breeding barn by **5:00 a.m. central time** on collection days and will have your semen packaged and shipped shortly after collection. If you need to cancel an ordered shipment you will have to contact us prior to 5:30 a.m. that morning or semen will be packaged and on its way to the courier. **Do not wait until the day the mare is a breeder to contact us for a shipment.**

All shipments originating from Monday, Tuesday, Wednesday, Thursday or Friday (Friday - if you have Saturday delivery in your area) collection days can be sent priority overnight Fed Ex, UPS or Airline if required. All Saturday, Sunday (and Friday if you do not have Saturday delivery available in your area) collection day shipments will require Airline via courier service to DFW airport for a counter to counter flight to your nearest airport. DFW is Central time zone and has many daily flights available to most major airports.

If you need to cancel a shipment please let us know the evening prior to collection so that we can cancel courier service. Please use our Office # **580-276-9397** or Cell # **580-221-4865** (carried at the breeding barn) and speak to a live person when ordering or canceling semen.

Please inform us of your mare=s ovulation date and results of pregnancy checks as available for our records.
